## About Me

I'm a Django developer passionate about building web applications that are clean, functional, and user-friendly. I enjoy problem-solving, learning new technologies, and continuously improving my skills. I've worked on various projects, from e-commerce platforms to CRM systems and job portals, always focusing on delivering useful and practical solutions.

## What I Know

- **Languages:** Python, JavaScript
- **Web Development:** Django, HTML, CSS
- **Version Control:** Git, GitHub
- **Other Skills:** API integration, Authentication (Google, GitHub), CRUD operations

## Projects I've Worked On

### **swiftCart (E-commerce Website)**

- Built an e-commerce website using Django.
- Added product listings, user authentication, and cart functionality.
- Designed a simple and user-friendly interface.

### **CRM (Customer Management System)**

- Developed a CRM system with authentication and CRUD operations.
- Created a dashboard for managing customer information.
- Focused on making the UI clean and easy to navigate.

### **Job Portal (In Progress)**

- Building a job portal where users can register as job seekers or job creators.
- Implementing job posting, search filters, and application functionality.

- Planning to add Google and GitHub authentication.

### **\*\*Other Projects\*\***

- **\*\*Blog App:\*\*** A simple blogging platform with post management and a like feature.
- **\*\*Notes App:\*\*** A personal notes app with different categories.
- **\*\*Todo App:\*\*** A basic task manager to track daily activities.

## **Education**

Crimson College of Technology, Butwal, Nepal

Bachelor in Computer Application (BCA)

(Expected Graduation: 2028)

## **Languages I Speak**

- Nepali (Fluent)
- English (Proficient)

## **What I'm Up To**

- Constantly working on personal projects to sharpen my Django skills.
- Exploring new tools and technologies to enhance my development workflow.
- Looking forward to contributing to real-world projects and gaining experience.
