Career Summary

Aspiring Django Developer with a strong foundation in web development, specializing in building dynamic and user-friendly web applications. Passionate about learning new technologies and continuously improving my skills. Experienced in creating e-commerce platforms, CRM systems, and job portals with authentication, search filters, and dashboard functionalities.

Skills

- Programming Languages: Python, JavaScript
- Web Development: Django, Tailwind CSS, HTML, CSS
- Databases: PostgreSQL, SQLite
- Version Control: Git, GitHub
- Hosting Platforms: Railway
- Other: API integration, Authentication (Google, GitHub), CRUD operations

Projects & Experience

swiftCart (E-commerce Website)

- Developed a feature-rich e-commerce platform using Django.
- Implemented product listing, user authentication, and cart functionality.
- Designed a clean UI with Tailwind CSS for better user experience.

CRM (Customer Relationship Management System)

- Built a CRM system with authentication and CRUD operations.
- Implemented a dashboard for managing customers and sales data.
- Designed the UI with plain CSS, focusing on simplicity and usability.

Job Portal (Ongoing)

- Developing a job portal where users can register as job seekers or job creators.
- Implementing category-based search filters and job application functionality.
- Planning to integrate Google and GitHub authentication.

Other Projects

- Blog App: Created a simple blog platform with post management and a nested comments feature.
- Notes App: Developed a note-taking app with categories like personal, work, study, and finance.
- Todo App: Built a minimalistic task manager using Django and Tailwind.
